

Nursing Support Services

Who We Are

Community based Registered Nurses who provide support to children (0-19 years) that require specialized health care while in a variety of community settings (school, daycare, preschool, home)

What We Do

- * Provide assessments, individualized health care plans, child specific training and delegation within community settings that require *judgement around medical care*
- * Coordinate direct nursing respite support for eligible children
- * Provide information and consultation services

We Provide Care For Provincial Health Services Authority

- * Delegation in Schools
Train and supervise school staff to care for children with diabetes, seizure disorders, tube feeds, oral suctioning and catheterization needs
